

How to:

Your 2016 School Year Vision Board

- 1.** Make piles of words and images you find that connect to your goals for the school year. Stay positive as you look through magazines. Focus on goals and solutions!
- 2.** Print and fill out the Vision Board printables.
- 3.** Create a mock-up by placing images and printables on your board without gluing them down. Eliminate items that no longer fit into your vision for the school year.
- 4.** When you're ready, start gluing items down. Consider leaving space for a picture of you, your class, or school in the center.
- 5.** Take a picture of your board and share it with us on Facebook or Twitter!

Materials Needed

Any kind of board
(poster board,
cardboard, pinboard)

Magazines and
newspapers

Scissors

Coloring and
writing supplies

Glue, tape, or pins

Printables from Achieve
the Core
