

Smarter Balanced Assessment Item Illustrating 3.MD.C.7d

© ITEM ADAPTED WITH PERMISSION FROM THE SMARTER BALANCED GRADE 3 PRACTICE TEST. AVAILABLE FROM [HTTP://WWW.SMARTERBALANCED.ORG/ASSESSMENTS/](http://www.smarterbalanced.org/assessments/); ACCESSED APRIL 2016. PLEASE CONTACT SMARTER BALANCED DIRECTLY FOR ADDITIONAL INFORMATION ON TERMS OF USE.

Two rectangles are joined to create the figure shown.

Enter the area, in square feet, of the figure.

Answer Key

33 square feet

Elaboration on Alignment

This item illustrates the grade 3 standard, asking students to compute the total area of a figure composed of rectangles. In grade 4, students will extend this knowledge to solving real world problems that help to solidify their understanding of the difference between perimeter and area in preparation for their grade 5 work with volume.
