

Foundational Skills Practice Strategies—Kindergarten and First Grade

To develop their foundational skills in reading and writing, students need practice. All students will need some practice, and many students benefit from lots of practice opportunities—likely more than your curriculum provides.

Here are some examples and resources you can use to supplement your kindergarten or Grade 1 foundational skills instruction. For each, consider how you will adapt the content of the activity to match student needs and your scope and sequence to reflect current or previously taught skills that require additional practice.

These activities will be most effective with a structured foundational skills program that includes a scope and sequence. Two standards-aligned programs, available for free, are Core Knowledge Language Arts and EL Education. In addition, please ensure that these activities align with your state’s standards.

Supplementing your structured foundational skills program may be necessary to give your students sufficient practice to cement their learning, but it must be done strategically. To select an effective practice activity, ask yourself these questions when considering planning for your class or individual students based on data:

- **What scope- and sequence-based skill(s) are students practicing with this activity?**
- **How does the activity help students master the targeted skills?**
- **Does your selected practice activity require teacher involvement/instruction or can students complete it without direct teacher support?**

<p>Decoding (out of context) The process of reading words by recognizing the letters and the sounds they represent, and then blending them together accurately. “Out of context” refers to reading words in isolation, or out of the context of connected text.</p>	<p>Decoding words: Write words with taught sound and spelling patterns large enough so that all students can see them. Ask students to sound out the words quietly. When you give a signal, ask students to chorally read the words—this allows for more students to do the thinking than calling on one student at time.</p>  <p>Variations:</p> <ul style="list-style-type: none"> • Ask students to hold letter up letter cards while other students read the spelled words. Download your own large letter cards here. • Use a pocket chart or whiteboard to create chains of words - changing one letter at a time (e.g., at > mat > cat : cab). • Read it! Act it out! Ask students to read words and then act out what they mean (e.g., students read the word “run” and then act out running in place). 	<p>Florida Center for Reading Research: Encoding and Decoding Activities Note: Need to match to scope and sequence</p>
<p>High Frequency Words Words that occur most frequently in text.</p>	<p>For guidance on how to address sight words see:</p> <ul style="list-style-type: none"> • High Frequency Words? Sight Words? Is There a Difference? • Teach “Sight Words” As You Would Other Words <p>Watch this teacher introduce high-frequency words that both “play by the rules” (include taught sound and spelling patterns) and those that don’t.</p>	<p>Florida Center for Reading Research: High Frequency Words Note: Need to match to scope and sequence</p>
<p>Decodable Text (in-context practice) Text that is intentionally constructed, consisting of primarily taught, high-frequency words and words that contain taught sound and spelling patterns for students to practice decoding connected sentences.</p>	 <p>Decodable Reader Protocol for full-group reads</p>	<p>Decodable Reader Protocol follow up reads—a chance for teachers to assess/monitor student performance.</p> <p>Re-reading decodable readers that consist of sounds students are not yet decoding with accuracy/automaticity.</p>

*Denotes kindergarten-only skill.

	<p>For access to free decodables see:</p> <ul style="list-style-type: none"> • CKLA includes free decodables starting in Unit 7 of kindergarten called “Student Readers,” available as PDFs within each unit’s materials. The end of each reader has a chart with included sound and spelling patterns and high-frequency words for your reference. • EL Education includes free decodables texts along with its resources. To download, click on “Access the Curriculum.” Sign up for a free account. Find decodables under the “Skills” section for the grade level. • The Reading League’s list of decodable texts. Please note that many of these are not free resources. <p><i>Note that unless you are following the scope and sequences of the above programs, students may need additional support to decode words with untaught sound and spelling patterns.</i></p>
