**Book(s)**
1. “My Five Senses”
3. “Stick Out Your Tongue!”
4. “Taste”
5. “Touch”
6. “The Nose Book”
7. “You Can’t Taste a Pickle with Your Ear”

**Article(s)**
8. “Learning About the World”

**Videos**
9. “Five Senses”
10. “Curious George: Five Senses”

**Other Media**
11. Five Senses Poem

Each expert pack contains a variety of selections grouped to create as coherent and gradual a learning process for students as possible, generally beginning with lower levels as measured by quantitative and qualitative measures, and moving to more complex levels in the latter selections. This gradated approach helps support students’ ability to read the next selection and to become ‘experts’ on the topic they are reading about.  
Refer to annotated bibliography on the following pages for the suggested sequence of readings.

<table>
<thead>
<tr>
<th>Rationale and suggested sequence for reading:</th>
</tr>
</thead>
<tbody>
<tr>
<td>In the first video, “Curious George: Five Senses,” students are introduced to an overview of the five senses. The next resource, “My Five Senses,” further illustrates each of the five senses. Students then interact with a video, “Five Senses Poem,” learning a song about the five senses. Students then watch a video, “Five Senses,” which is an interactive video. This video will be used as a center for students to plan the game throughout the unit. To check for understanding the article, “Your Five Senses,” will be read to students and comprehension questions will be asked orally. The next six resources (informational books) expose students to each of the five senses and their uses. Students will begin to explore the many uses of their five senses by the read a-louds and activities associated with each of the books. The final check for understanding, “Learning About the World,” article will be read to students. Student will then complete two questions independently, which require them to list the senses, draw a picture of the body parts that give you each of the five senses, and label what sense each body part is for.</td>

### The Common Core Shifts for ELA/Literacy:

1. Regular practice with complex text and its academic language
2. Reading, writing and speaking grounded in evidence from text, both literary and informational
3. Building knowledge through content-rich nonfiction

Though use of these expert packs will enhance student proficiency with most or all of the Common Core Standards, they focus primarily on Shift 3, and the highlighted portions of the standards below.

### College and Career Readiness Anchor Standards for Reading Literary and/or Informational Texts (the darkened sections of the standards are the focus of the Expert Pack learning for students):

1. **Read closely to determine what the text says explicitly and to make logical inferences from it**; cite specific textual evidence when writing or speaking to support conclusions drawn from the text.
2. **Determine central ideas or themes of a text** and analyze their development; summarize the key supporting details and ideas.
10. **Read and comprehend complex literary and informational texts independently and proficiently**

### Annotated Bibliography

**N/A  “Curious George: Five Senses”**

Author: Unknown  
Genre: Informational video; animation, narrative setting, and focus on vocabulary  
Length: 2:03 minutes  
Synopsis: Explore how people and other animals use the five senses to learn about the world around them in a video excerpt from Curious George: Oh Deer. Follow George and his friend, Bill, as they use the five senses to search for a way to keep deer from eating the garden flowers. Then celebrate with George and Bill as they find a solution to the problem by using the sense of taste. After watching the video, have children identify and record mystery items by using their five senses—smelling, touching, seeing, hearing, and tasting.

Supports for Struggling Students

By design, the **gradation of complexity** within each Expert Pack is a technique that provides struggling readers the opportunity to read more complex texts. Listed below are other measures of support that can be used when necessary.

- Provide a brief **student-friendly glossary** of some of the academic vocabulary (tier 2) and domain vocabulary (tier 3) essential to understanding the text.
- Download the Wordsmyth widget to classroom computers/tablets for students to access student-friendly definitions for unknown words. [http://www.wordsmyth.net/?mode=widget](http://www.wordsmyth.net/?mode=widget)
- Provide brief **student friendly explanations** of necessary background knowledge.
- Include **pictures or videos** related to the topic within and in addition to the set of resources in the pack.
- Select a small number of texts to **read aloud** with some discussion about vocabulary work and background knowledge.
- Provide **audio recordings** of the texts being read by a strong reader (teacher, parent, etc.).
- **Chunk the text** and provide brief questions for each chunk of text to be answered *before* students go on to the next chunk of text.
- Pre-reading activities that focus on the **structure and graphic elements** of the text.
- Provide **volunteer helpers** from the school community during independent reading time.

**Why Text Sets Support English Language Learners**

Those acquiring English as a second language have to learn many words in English to catch up with their English-only peers. Vocabulary builds at a much quicker pace when reading a set of connected texts. Text sets are an adaptable resource perfect for building knowledge and vocabulary. Student use of text sets can vary in terms of independence or teacher supports based on the individual needs of the students in the room. Activities found within the text set resources reflect several best practices for English Language Learner instruction including:

- Providing brief, engaging texts that provide a high volume of reading on a topic.
- Providing web-based resources and/or videos that are tied to the content of the texts students are reading.
- Providing opportunities for students to learn new vocabulary through the use of student-friendly definitions in resource-specific glossaries.
- Allowing for options to reinforce newly learned vocabulary and/or content through graphic organizers.
- Providing opportunities for students to reinforce new vocabulary through multi-modal activities including written work, group discussion, viewing visual content, and reading texts that feature the vocabulary.

Teachers of ELLs may use the protocols on the following pages to provide additional support to students who are struggling to access the content within text sets because they are new to English.
ELL Text Set Protocol Grades K-2

The protocol below assumes that students will be engaged in reading text sets with the support of the teacher and/or another adult staff member. This can be done full class, or in small groups, but will likely require adult support in this grade band.

Please note that this protocol includes options for teachers. This includes the order in which various activities (steps) take place. Individual decisions should be made considering the needs of the students and the demands of the content, keeping in mind that the goal of each scaffold is to allow students to meaningfully access each text and move toward independent, knowledge-building reading.

**Step one: Build knowledge and vocabulary as you build student interest and engagement in the topic.**

Introduce students to the overall topic/content of the text set, including knowledge demands needed to engage in the content, and domain-specific vocabulary necessary for comprehension. This should be done prior to engaging with the texts themselves – time allotted to this activity should reflect student needs (anywhere from 5 minutes prior to reading, to a full day’s lesson is appropriate).

*Options for this step include:*  
- Engage students in reading and discussing auxiliary texts and resources (illustrations, photographs, video clips) on the topic of the text set.  
- Pre-teach a few key content-specific terms prior to students engaging with a text set. (Ideas for text-focused vocabulary instruction can be found [here](#)).  
- Provide a student-friendly glossary prior to reading each text, with picture support where possible.

If pairing the text set with a Read Aloud lesson, giving students access to the resources in the text set can help build their knowledge and vocabulary prior to engaging with the anchor or primary text, as can access to the resources alongside subsequent reads of the anchor text. The “juicy sentence” discussion is a strategy developed by Dr. Lily Wong Fillmore to help students learn to deconstruct and reconstruct sentences, and to understand how different language features contribute to meaning. Teachers should use the juicy sentence guidance to dig deeply into a sentence or phrase within the read aloud book, to build vocabulary, deepen content knowledge, and support understanding of syntax and grammar. Juicy sentence work should not be done for the other texts in the text set, since the purpose is for students to work rapidly through a high volume of reading to build knowledge.

**Step two: Read text orally.**

Focusing on one resource at a time, allow students to listen to a fluent read of the resource.

*Options for this step include:*  
- Have the teacher model the first read of a text or resource.  
- Use recordings of the text to provide additional opportunities to hear expert reading.

**Step three: Engage in group discussion about the content.**

Allow students time in partnerships or small groups to discuss the content of the resource.

*Options for this step include:*  
- Allow for discussion/conversation (in the students’ home language if possible) with a small group of students reading the same text set prior to writing or provide heterogeneous language groupings to talk about content and discuss what students are learning.  
- Provide opportunities to practice using newly acquired vocabulary in the context of discussion.  
- Have students refer to the student-friendly glossary included with each passage to identify meanings for new vocabulary necessary for comprehension.

**Step four: Write about what was read.**

*Options for this step include:*  
- Use the “Rolling Knowledge Journal” and/or “Rolling Vocabulary Journal” as a shared writing routine.
• Have students complete the “Rolling Knowledge Journal” and/or “Rolling Vocabulary Journal” as independent graphic organizers that help to scaffold the writing process and capture student knowledge over time. Encourage students to use a combination of writing and drawing.
• Provide students with several supports to help students engage in writing/drawing about what they read:
  o Use mentor texts about which students can pattern their writing.
  o Allow them to write collaboratively.
  o Show students visual resources as prompts, etc.
  o Provide language supports such as strategically chosen sentence starters.

Repeat steps one through four with each resource in the text set as appropriate.
Text Complexity Guide
“You Can’t Taste a Pickle with Your Ear!” by Harriet Ziefert

1. Quantitative Measure
Go to http://www.lexile.com/ and enter the title of the text in the Quick Book Search in the upper right of home page. Most texts will have a Lexile measure in this database. You can also copy and paste a selection of text using the Lexile analyzer.

<table>
<thead>
<tr>
<th>Band</th>
<th>Lexile Range</th>
</tr>
</thead>
<tbody>
<tr>
<td>2-3</td>
<td>420 - 820L</td>
</tr>
<tr>
<td>4-5</td>
<td>740 - 1010L</td>
</tr>
<tr>
<td>6-8</td>
<td>925 - 1185L</td>
</tr>
<tr>
<td>9-10</td>
<td>1050 – 1335L</td>
</tr>
<tr>
<td>11 – CCR</td>
<td>1185 - 1385L</td>
</tr>
</tbody>
</table>

2. Qualitative Features
Consider the four dimensions of text complexity below. For each dimension*, note specific examples from the text that make it more or less complex.

<table>
<thead>
<tr>
<th>Meaning/Purpose</th>
<th>Structure</th>
</tr>
</thead>
<tbody>
<tr>
<td>The purpose is explicitly stated and designed to inform the reader of how to use your ears and brain to hear. There is limited use of symbolism and poetic language that alludes to other unstated concepts. The language is explicit and relies on literal interpretations.</td>
<td>The structure is fairly organized, with the text broken up into chapters, with each one dedicated to one of the 5 senses. The first ch. provides an overview. The graphics are extensive and essential to make meaning of the text. The text is written in varying font styles. Students need to transition from the basic left-right, top bottom style to more complex font style that does not follow traditional sentence structures. The pictures are intertwined within sentences, and also above/below the text. Students need to connect the graphics and the prose to make meaning. For example: “My nose knows when Spot walks by, if his fur is wet or dry.” The picture under the text has a boy holding his nose and in the distance is a dog with water spraying off his fur. If the students can not relate any life experiences with wet animals the picture would help them determine that the dog stinks.</td>
</tr>
</tbody>
</table>

<table>
<thead>
<tr>
<th>Language</th>
<th>Knowledge Demands</th>
</tr>
</thead>
<tbody>
<tr>
<td>The text has simple and compound sentences with some complex constructions. The academic language is sometimes unfamiliar (receptors, unpleasant, magnifying, and the phrase “touch and taste are connected”). The conventionality is largely explicit and easy to understand with some occasions for more complex meaning.</td>
<td>The subject matter should be familiar to students reading the expert pack. “You use your two ears to hear. Your ears hear sounds all the time, and you can usually tell where a sound is coming from.” The senses will be known if the texts have been read in the suggested order.</td>
</tr>
</tbody>
</table>

3. Reader and Task Considerations
What will challenge students most in this text? What supports can be provided?
- Encouraging students to make connections to other texts in the set could support and deepen understanding.
- Rereading and discussion could support students with sentence length and vocabulary demands. Many of the words can be supported with discussion of the context.
- Finding and rereading juicy sentences with voice could provide speaking and listening lessons for the class.
- Creating an anchor chart with a diagram of the body parts and which senses are related to each part will provide visual support to students.

*For more information on the qualitative dimensions of text complexity, visit http://www.achievethecore.org/content/upload/Companion to Qualitative Scale Features Explained.pdf
Note to teacher: Even though the text “Taste!” was at a higher lexile we felt this particular book would require students to use inferences to determine the meaning of several words/phrases. In addition, without the pictorial representations, students who lack the life experiences would be unable to understand the text. Further, the qualitative features in this text reflected varied structures and complexity. Since this text is organized in chapters, it provides multiple chapters supporting the topics relating to the senses. In addition, the graphics are necessary for the readers to determine the meaning of several vocabulary words. The illustrations support and extend the meaning of the text.

**Learning Worth Remembering**

**Cumulative Activities** – The following activities should be completed and updated after reading each resource in the set. The purpose of these activities is to capture knowledge building from one resource to the next, and to provide a holistic snapshot of central ideas of the content covered in the expert pack. **It is recommended that students are required to complete one of the Cumulative Activities (Rolling Knowledge Journal or Rolling Vocabulary) for this Expert Pack.**

1. **Rolling Knowledge Journal**  
   1. Read each selection in the set, one at a time.  
   2. After you read each resource, stop and think what the big learning was. What did you learn that was new and important about the topic from this resource? Write, draw, or list what you learned from the text about (topic).  
   3. Then write, draw, or list how this new resource added to what you learned from the last resource(s).

**Sample Student Response**

2. **Rolling Vocabulary: “Sensational Six” modified for K-1**

- Read each resource then determine the 6 words from each text that most exemplify the central idea of the text.
- Next use your 6 words to draw about the most important idea of the text. You should have as many pictures as you do words.
- Continue this activity with EACH selection in the Expert Pack.
- After reading all the selections in the Expert Pack, go back and review your words.
- Now select the “Sensational Six” words from ALL the word lists.
- Use the “Sensational Six” words to draw a summary of what you learned from this Expert Pack.

Learning Worth Remembering

**Singular Activities** – the following activities can be assigned for each resource in the set. The purpose of these activities is to check for understanding, capture knowledge gained, and provide variety of ways for students to interact with each individual resource. Students may complete some or none of the suggested singular activities for each text. Singular activities should be assigned at the discretion of the teacher.

A Picture of Knowledge (Recommended for “My Five Senses”, “Five Senses”, “Taste”, “Stick out your Tongue!”, “Touch”)

1. Take a piece of paper and fold it two times: once across and once top to bottom so that it is divided into 4 quadrants.

2. Draw these shapes in the corner of each quadrant.
   - Square
   - Triangle
   - Circle
   - Question Mark

3. Draw!

   - Square: What one thing did you hear that was interesting to you?
   - Triangle: What one thing did you hear that taught you something new?
   - Circle: What did you hear that made you want to learn more?
   - Question Mark: What do you still wonder about?

4. Find at least one classmate and talk to each other about what you put in each quadrant.
2. **Wonderings** (Recommended for “You Can’t Taste a Pickle with Your Ear”,)

On the left, teacher will track things students don’t understand from the book as she/he reads. On the right side, teacher will list some things students still wonder (or wonder now) about this topic.

<tr>
<td>4. How does your senses help you?</td>
<td>My senses help me to understand about my world.</td>
</tr>
</tbody>
</table>
4. **Sing Along** (Recommended for “Five Senses Poem”)

   Students and teachers will sing along with the video to learn about the five senses.

5. **Silent Pantomime** (Recommended for “Curious George: Five Senses”)

   Students will act out the five senses based on the information and visuals from the video.

6. **Bar Graph** (Recommended for “Brown Bear, Brown Bear, What do you see?”)

   Students will complete a bar graph with the teacher that shows the various colors of eyes that students have in class.
