Will has 8 goldfish. Ella has 14 goldfish. How many fewer goldfish does Will have than Ella?

Name Nicholas Ranson

Illustrate it

OOOOOOO
X X X X X X X X X X X X X X
X X

Solve it $14 - 5 = 8$ Solve it

How did you solve it?

First, I drew 8 for will. Next, I drew 14 for Ella. After that, I counted 8 and subtracked the rest for Ella. Last, I found the missing number, it was 5!

Matt has 4 apples. Riley has 3 more apples than Matt. How many apples does Riley have?

Name _____

Illustrate it

Solve it   Solve it
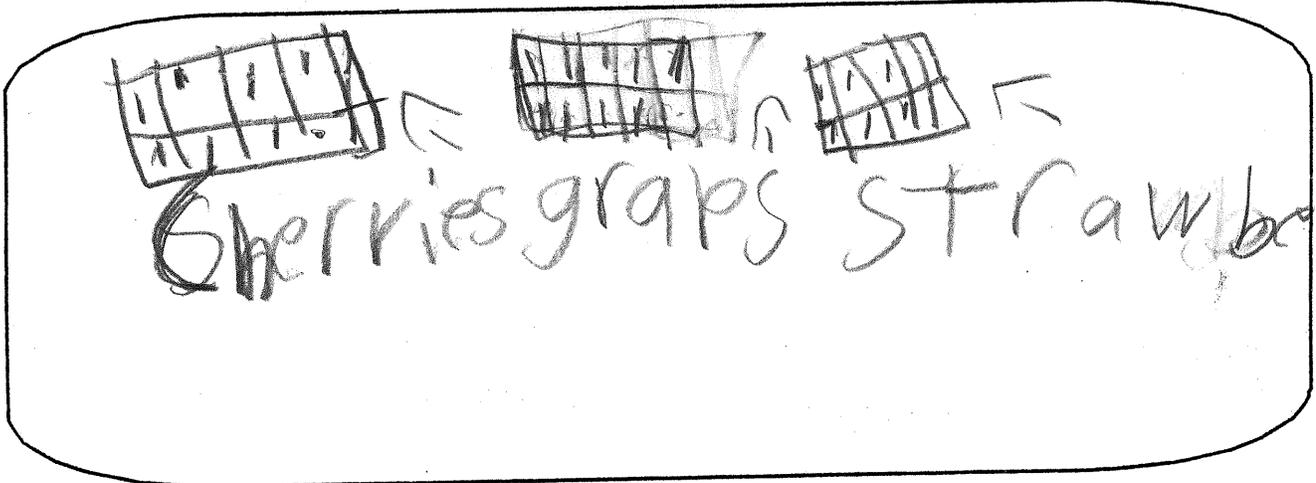

$4 + 3 = 7$ appuls

How did you solve it?

First, I made the ten-frame. Next, I put four in the frame. Then, I erased the frame and got four in a box and three out. Last, I had 4+3 [7]

At snack time Sam ate 8 cherries, 9 grapes, and 4 strawberries. How many pieces of fruit did Sam eat?

Name **Catalina**

Illustrate it

Cherries graps strawberries

Solve it

$$8 + 9 + 4 = \boxed{21}$$

17

How did you solve it?

First I added 8 + 9 is
17. Next I added 4 more
Then I got 21 in all.

My sister gave me 3 pencils. My brother gave me some more pencils and then I had 5 pencils. How many pencils did my brother give me?

Name _James_

Illustrate it

$3 + 2 = 5$

2 pencils

How did you solve it?

first,I put 3 in my ten frame. Next,I counted 2 more to get 5.Then,I did my equation. Last,I got my answer which was 2.
